Leader

Recyclerie sportive

Our goals

The sport community aims to create a dynamic in the Paris area for better integration of climate issues. It will infuse the orientations of the Climate Plan with sports stakeholders in Paris, to identify the needs and difficulties of these actors of the territory to accelerate the environmental action and gather these actors with the carriers of solutions.

The sports sector brings together organizations of very different natures and sizes. The Sport Community is consequently divided into two sub-communities in order to be able to adapt to the different challenges of the targeted actors:

- The organizers of major sport events
- Clubs and sports associations of the Parisian territory
